## The Skipper SD60FM Industrial Hand Pump

---

### The Skipper SD60FM Industrial Hand Pump

Originally designed for the Marine Industry, the Skipper's compact, lightweight design and economical price soon attracted industrial clients. Constructed with a strong aluminium handle, it can be either bench or wall mounted. This easy to use pump can handle large solids and is ideal for water, oils and diesel.

#### Stock Reference:

A2054

#### Materials

The Skipper SD60FM is made from tough polypropylene with stainless steel and zinc plated fastenings. The handle is made from cast alloy.

#### Mounting

The pump can be either base or vertically mounted, as illustrated.

#### Diaphragms

While nitrile diaphragms are fitted as standard, neoprene, viton and butyl diaphragms are available to best suit your particular pumping application.
